

THE LKS CRYO-EM LABORATORY TRAINING APPLICATION FORM

NAME: _____

DEPARTMENT: _____

PI: _____

HKU EMAIL*: _____

Tel: _____

* Training arrangement will be sent via email.

POSITION:

M.Phil. student Ph.D. student Staff Others

Please mark the facility you would like to be trained.

Please review the configuration of each instrument at <https://cpos.hku.hk/li-ka-shing-cryo-em-laboratory/> or contact us (cryoem.cpos@hku.hk / 3910-2938) for further information.

- 120kV & Negative Staining
- Sample Freezing with Thermo Fisher Vitrobot
- Sample Freezing with Leica GP2
- EPU operation

More training items are on the way....

- ❖ Training is applied to HKU users only
- ❖ Training is based on the **FIRST-COME FIRST-SERVED** policy. Your name will be added to the waiting list on the day you submit your application form to the LKS Cryo-EM lab.
- ❖ The training arrangement will be scheduled monthly for each training item. The routine training schedule will be canceled if no one is on the waiting list. Extra training sessions may be scheduled if more than 4 people are on the waiting list.
- ❖ The training is free, but we will assess the application based on the status of user's sample and project. EPU training needs the applicant's experience with 200kV/300kV microscopes for not less than five sessions.
- ❖ **It's suggested to submit the training application three months before the corresponding equipment booking.**
- ❖ Please email this scanned form to: cryoem.cpos@hku.hk
